NETWORK PROVIDES A PROVEN FOUNDATION FOR SUCCESS:

- **DEEP CATEGORY KNOWLEDGE**—Cleaning in healthcare is about more than shiny floors. Rely on NETWORK’s healthcare team to understand the products and deliver the training your organization needs to provide quality outcomes. From infection prevention to regulatory compliance, our trained and knowledgeable team provides expert support on the issues exclusive to cleaning for health.

- **VAST INFRASTRUCTURE, LOCAL RESPONSIVENESS**—Our system blends single-source convenience and centralized control with true local market presence; the result is seamless account service, compliance, operational improvements and lower total overall costs.

- **GAME CHANGING INNOVATION**—NETWORK never stops improving. We bring new products to market quickly and create proprietary programs like NetGreen® and Healthy Measures® to support the objectives of our healthcare customers.

- **INFORMED BUSINESS DECISIONS**—Better supply chain transparency fosters more informed business decisions. NETWORK provides accurate, timely data, 24/7 access to e-procurement technology, and quarterly business reviews so you can spend less time reconciling transactions and more time optimizing your operations and caring for patients.

**NETWORK® SHARES THAT SAME COMMITMENT.**

As the largest distributor of janitorial products in the market, NETWORK has the expertise, dedication, and resources to provide solutions for the unique supply chain challenges that exist in today’s complex healthcare environment.

With our consultative approach to supply chain solutions, NETWORK representatives engage in your business to become true partners. From analyzing processes and reviewing order history, to sharing the latest product innovations and industry best practices, NETWORK delivers results tailored to meet your operational goals.
YOUR NETWORK SOLUTION FOR A HEALTHIER ENVIRONMENT

In the ongoing battle to control expenses and maintain a healthy environment, NETWORK created Healthy Measures®. This three-step program is designed to improve patient satisfaction and reduce healthcare-acquired infections using improved environmental processes throughout the facility.

- **INTERVIEWS** highlight best practices and identify challenges
- **FACILITY ASSESSMENTS** measure cleaning performance and create a disciplined means to monitor continuous improvement
- **SCORECARDS** report results, offer recommendations, and build a collaborative plan for improvement

It has been said that one good housekeeper can prevent more disease than a dozen doctors can cure. With so much riding on proper cleaning, Healthy Measures provides an objective and measurable methodology to improve patient and business outcomes.

YOUR NETWORK SOLUTION FOR A SUSTAINABLE ENVIRONMENT AND WORKPLACE

Balancing the demand for sustainable business practices with the need for cost containment can be a challenge. To proactively address this critical business issue, NETWORK created NetGreen®. This proprietary program provides a holistic, collaborative approach to achieving your sustainability goals:

- **ASSESSING** your current situation, your goals, and your timeline
- **ADVISING** you of products and processes that support your unique sustainability goals
- **CONNECTING** you with the leading suppliers of quality green services and products
- **COORDINATING** access to local market experts who provide training and recommendations on the applications and advantages of green solutions

With this collaborative approach, we can help you meet your social, environmental and economic sustainability needs.

TAILORED SOLUTIONS DRIVEN BY A COMMITMENT TO CORE VALUES

NETWORK’s service model is built on core values that are reflected in every program and product we deliver:

▶ FLEXIBILITY
Our professional problem-solvers respond quickly to your needs—with resources in your area, just-in-time delivery, and the ability to meet the unique demands of a particular market.

▶ ACCOUNTABILITY
NETWORK distributors have a vested interest in your success, and they put their reputations on the line every day for our customers. As established companies, our distributors and representatives truly understand what it means to be a business partner. They are committed to sustaining long-term relationships with total accountability.

▶ EXPERTISE
NETWORK has more than 40 years of experience in this industry. We apply our unsurpassed expertise to the development of proprietary innovative programs—like NetGreen® and Healthy Measures®. This focus gives us a level of insight that enables us to pinpoint solutions for your specific needs.

Only NETWORK combines the efficiency of a centrally managed national structure with local market presence, personal accountability, program flexibility, and market expertise. Our resources are dedicated to meeting the supply needs of today’s healthcare facilities. See what Distribution by Design® can do for you.
